

Mat-Su Vaccine Coalition
Meeting Wednesday May 19, 12:30-1:30
Minutes

Present: Pat Hogan, Jamie Allison, JD Pross, Carol Koliadko, Karen Impson, Stacy Peterson, Miriam Hinthner, Laurel Flynn, Lois Weisgerber

1. Review of April 21, 2010 Minutes (Next Meeting Wed. June 16, 2010)

2. Stakeholder Growth:

- a) Discussion about Dr. John Oliver's presentation of "Modern Medical Miracles".
Decisions: 1) ask Dr. Oliver if he would be willing to give a live presentation at the Valley Christian Conference – date and contact to be provided by Dr. Karen Impson and then approach Dr. Oliver about the possibility. 2) Ask Dr. Oliver if his presentation could be taped for other presentations/times/places.
- b) Public Health Center volunteer, Holly, is currently working on a local provider list updating names, locations and numbers. She will also assist in putting together recruitment packets for providers.
- c) Suggestion: to have a list of current supporters to be included in the recruitment packet.
- d) Decided to approach providers by face to face drop in and follow-up for MOU.
- e) Decided to use the terminology of "Memorandum of Understanding" rather than "Memorandum of Agreement". "Understanding" implying voluntary cooperation and not as legally binding as an "Agreement" relationship.
- f) Epi Quality Control personnel will provide Public Health Center with a list of current providers who access vaccines for the population in the Mat-Su area. This list then can be reviewed to note who does and does not provide vaccines in our area.
- g) Have a July Sign-Up/Join-Up drive to include ;
 - 1) Dedicated PHN time to go out into the community to disperse recruitment packets.
 - 2) Invite musher Martin Buser to July Coalition Meeting and get some photographs – to kick off sign-up/join-up

3. Social Messaging:

- a) Stacy Peterson describes that a website template is in progress. A name for the website needs to be decided on. The group offered up some names. Stacy will research to see what is available compared to what we have offered. At this time, Stacy has volunteered to post the fee for the site for this year – so it may be an independent site. A big thank you to Stacy for this offer/assistance.
- b) Newsletter development: Letter to be produced on a "seasonal" basis (4 a year). Carol encourages submissions. Newsletter can be placed on the Website.

4. Mobile Vaccine Project: (workgroup meeting every other week)

- a) Workgroup has an initial meeting to brainstorm major operation and organizational areas.
- b) Timeline has been started.
- c) No mobile unit yet volunteered. Stacy suggests the consideration of a 26 ft. "box" trailer with lights/electrical hook up. We could place tables and chairs in and banner outside. (If a RV does not come to us as gratis)
- d) Suggested to ask to use an "Izzy" type costume to coincide with the mobile unit – Carol to contact Doreen Stangle when dates are decided upon.
- e) Suggested to include book give-aways with the mobile unit through MSPHC Reach Out & Read Books
- f) Add WIC personnel to list of possible project volunteers and coalition participation.
- g) Suggest to include ice cream coupons supplied by "Scoops" coordinated by Dr. Karen Impson

(Recorder: Carol Koliadko)
